

# HOW IS COVID-19 TRANSMITTED?

## Close person-to-person contact

With an infected individual via respiratory droplets that are spread through:

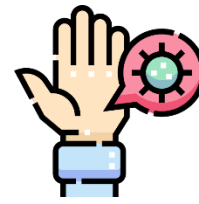

Talking

Sneezing

Coughing

## Inhalation/Touch-Transfer

Of infected respiratory droplets from an infected surface to mucous membranes like:

Eyes

Nose

Mouth

# DEVELOPMENTAL SYMPTOMS

Cough

Fever

Sore Throat

Difficulty  
Breathing

Loss of taste  
and smell

# TRANSMISSION PREVENTION

Wash hands frequently  
with soap and water

Clean and disinfect frequently  
touched areas daily

Avoid touching your face  
with unwashed hands

Cover your cough/sneeze  
with a tissue or your elbow

Avoid contact with people  
who are sick

Stay home if you develop  
respiratory symptoms like  
fever or cough
