

Please check your records. The certification is good for three years – if you have someone with an expiring certification – please send them to one of these classroom certification courses.

**This is the last opportunity until Fall 2023**

## **AERIAL LIFT OPERATOR CERTIFICATION**

**May 5, 2023**

**8-10 am**

Stanislaus County Office of Education  
Gratton Room  
1100 H. St  
Modesto, CA 95354

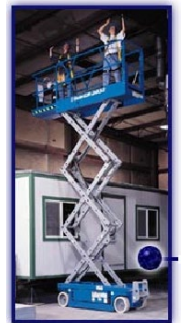

**May 11, 2023**

**8-10 am**

Merced County Office of Education  
Newbold Room  
632 W. 13<sup>th</sup> St  
Merced, CA 95341

**You must attend the classroom portion in order to qualify for certification.**

**For employees attending the class, after you pass the classroom portion, the trainer will set up a time to visit your site and observe your operation of the aerial lift. The lift must be in good operating condition and must be available for use.**

- Aerial lifts include scissor lifts, man lifts, boom lifts (truck mounted and/or trailer mounted), platform lifts, or other type of man lift system.
- There are specific requirements for each type of these aerial personnel lifts. These are NOT forklifts – but are specifically designed to handle humans working at elevated levels.
- **This is not a basic training class – remember you must be a qualified operator. this is a certification class. If you have never operated a lift before, you may still attend the class, however there WILL be limitations on the certification process.**
- The certification is good for 3 years and satisfies OSHA requirements.

**Please be prepared to provide the name and phone number of the supervisor and the type of lift to be operated (Type and model #)**

**Space is limited – Sign-up now!**
